SCAN THE WORLD

# XT7000 HS

## The Highest Speed A3 Flatbed Scanner

**2** sec

## Faster, Stable, & Reliable

- **Fast scan speed of 2 seconds in color**
- **Lowers the lid to scan directly**
- **Easy-to-use smart-touch button**
- **Crops multiple images automatically at one time**

| A3 Size | 600 DPI | CCD | Landscape Design | 2 sec Color Scan | USB 3.0 | No Break Scan Bed | 1 Programmable Fast Button | Auto Crop & Deskew | Smart Auto Scan |

## XT Series
# XT7000 HS

**2 SEC**

### Lowers the Lid to Scan Directly

Equipped with a scanner lid detection sensor, the XT7000 HS can start a scan automatically once the scanner lid is closed and detected by the sensor. You can perform scan jobs easily without pressing any buttons or repeatedly clicking the mouse.

### Crops Multiple Images Automatically

With this feature, the scanner is able to crop and extract multiple images in just one scan automatically, saving extra time from document scanning and image cropping.

*Auto-cropping at one time*

### Scan Full Color of A3 in 2 sec

The XT7000 HS takes only 2 seconds to scan a full page of A3-size document at 300 dpi. The scanning speed remains the same, no matter the color mode is set up as color, grayscale or B&W, generating constant work efficiency.

### Microtek Application Center

### No Break Platform

The design of no-break platform ensures the scan bed to be absolutely flat; therefore, no marks will be left on the oversized document once the lid is closed. Also, it is easy for you to slide the scanned document out from the scan bed and makes a book easier to lie flat on the scan bed, decreasing happenings of blurry images closed to the inner margin of a book.

### Simple-to-Use Software Simplifies Routine Office Jobs

Microtek ScanWizard Control Panel is an integrated but simple-to-use software, for it modularizes scan functions used commonly in daily offices.

Just clicking a button, you can scan and save the image into a folder, or scan and directly OCR the image into Word, Excel, PDF or PPT application for further editing. With it, you can start to manage and organize daily jobs as simple as you want.

### Switchable Black/White Background

With the use of the black background for scanning documents, the scanner can perform automatic image cropping to fit the original size of the image and correct the skewed image during scanning. With the use of the white background, the scanner can ensure a clear background for the thin translucent paper and thus enhance OCR accuracy.

### Segmented Scanner Lid

The scanner lid is equipped with an assistant hinge, enabling you to lift the lid and stop at an angle position from 30 to 90 degrees. The design is helpful to release the fatigue value of users for they do not have to repeat the actions of opening or closing the lid when scanning large volumes of originals, enhancing the work efficiency and extending service life of the scanner at the same time.

### Quick and Smart-touch Button

The scanner comes with a smart-touch button "Scan" which provides you a quick and easy way to launch a scanning function that can be defined through the ScanWizard DI, including scanning to a file, scanning to print, scanning to OCR, or scanning to email. All you need to do is simply to press "Scan" button.

### Dust Proof Design

Implemented with a dust proof design to connectors and the top cover, the scanner inside can be protected effectively from tiny dust and sundries and thus is able to maintain a clean environment for image capturing.

### Powerful scanning software

Advanced ScanWizard DI offers a host of smart functions and image adjustment controls for scanning. DocWizard is ideal for managing scanned files, it allows you to easily delete, insert, replace, sort, merge, split, and classify files, making file management more efficient.

## Specifications

| | |
|---|---|
| Scanner Type | A3 flatbed scanner |
| Image Sensor | CCD |
| Optical Resolution | 600 dpi |
| Light Source | LED |
| Color Depth | 48-bit (Input) / 24-bit (Output) |
| Color Mode | Color / Grayscale / B&W |
| Scanning Area | 12" x 17" (304.8 mm x 431.8 mm) |
| Scanning Speed | 2 sec @300 dpi, A3/Color |
| File Format | BMP、JPEG、JPEG 2000、PDF、TIFF、PDF/TIFF-Multiple Pages |

| | |
|---|---|
| Interface | USB 3.0 |
| Software Driver | TWAIN |
| Dimensions (LxWxH) | 24" x 16.4" x 5.9" (610 x 417.5 x 150 mm) |
| Weight | 23.6 lbs. (10.7 kg) |
| Voltage | AC 100V to 240V, 50 - 60 Hz (Input) DC 24V, 2.5 A (Output) |
| Environment | Operating temperature: 10° to 40°C (50° to 104°F) Relative humidity: 20% to 85% |

## System Requirements

- DVD-ROM drive
- Color display with 24-bit output capability
- 1GB RAM or more (2GB is recommended)
- Intel Core i3 processor PC or higher with a built-in USB port
- Windows 7 / 8 / 10

## Included Software

- Microtek® ScanWizard™ DI
- Microtek® DocWizard
- ABBYY FineReader® Sprint OCR
- Adobe® Acrobat® Reader
- Microtek® ScanWizard™ Control Panel
