## MAIN FEATURES

**Kobra FlexPack Desktop is the ideal ecological and economical solution when it comes to packaging material.** Kobra FlexPack Desktop simultaneously cuts and perforates cardboard to create high-quality packaging material. This will help to save costs, time and to protect the environment.

- **Kobra FlexPack Desktop transforms used cardboard boxes into filling material** either as a packing and cushioning material or as a filling material for safe deliveries of any product.
- An **adjustable working width with scale** enables the user to optimize the measure of the packaging material according to the sizes of the boxes. Moreover, it has a large and convenient carton support table ensuring easy operation.
- The unit produces very low noise level on a **24-hour continuous duty operation** and carries a very high-efficiency motor that can save considerable electrical energy cost. It plugs into a standard 230 Volt outlet.
- **Super Potential Power Unit:** chain drive system with steel gears.
- It stands out for its sturdy and robust Kobra power unit and for its Kobra **high carbon grade steel cutting knives**.
- Easy to lift and carry thanks to the **handles** on both sides.
- **Rubber feets** to ensure a stable and non-slip support.

**EASY TO USE:** adjustable inlet width, to cut the cardboard according to the size of the boxes.

**SUPER POTENTIAL POWER SYSTEM:** chain drive system with steel gears.

**TRANSFORM USED CARTON** into high quality packaging material.

**PROTECT YOUR OBJECTS,** ensure safe transportation.
