

FUJITSU Image Scanner fi-7700S

Heavy-duty & flexible production scanner
for professional use

shaping tomorrow with you

■ fi-7700S Features

Stable and smooth scanning of a large volume of documents or various types of documents

The fi-7700S allows you to scan A4 landscape documents at 75 ppm (200/300 dpi). The scanner is suitable for continuous scanning because it allows you to load up to 300 sheets of documents at a time. It helps improve efficiency for scanning a large volume of documents. In addition, various types of documents, such as thin paper, plastic cards, books, magazines, envelopes, and long page documents can be scanned on this scanner.

■ Mechanism for stable paper feeding and ejecting that prevents document damage and paper feeding failure

● Scan various types of business documents with a single scanner

The straight paper path structure that reduces the load on a document that is being fed, assures stable scanning regardless of the condition and type of a document. By simply changing the feed mode to non separation mode, you can easily scan thick documents such as drawings folded in half, multi-layered receipts, and envelopes with the same straight paper path operation.

● Protect important information by preventing missing edges and document damage

Skew Reducer helps improve the feeding performance significantly and prevents a scanned image from missing an edge. Paper Protection minimizes the risk of document damage and protects your important documents by detecting abnormalities in sound and document length.

■ Design that meets the user's needs

The fi-7700S helps improve the efficiency of operations by providing a variety of functions that make scanning easier for the user.

● Fully utilize allocated space with its flexible design

The scanner is equipped with an ADF that can slide to the right or to the left or rotate by 180 degrees. A user can load documents easily for scanning by adjusting the ADF to suit the user's office or workspace environment. Operational panel is equipped with an LCD screen to let user easily check the status of the scanner.

180 degrees movable ADF

● Reduce the workload before and after scanning from setting to collecting documents

When setting documents, you can easily align the edges of the documents with independent side guides even if the size of each document varies. For collecting documents, Stacker Side Guide reduces the time and effort that are required for aligning and putting away documents after a scan to prevent ejected documents from being unevenly stacked or aligned. Even when scanning with the flatbed, you can consecutively scan thick, fragile or bound documents with the document cover open, which results in smoother scanning flow.

■ Advanced software for your work efficiency

● Connect your business workflow with PaperStream IP and PaperStream Capture

The PaperStream IP scanner driver, which supports TWAIN/ISIS, avoids the inconvenience of fine setting adjustments for OCR processes. It automatically converts the images into exceptionally clean images, accelerating OCR even when scanning wrinkled or soiled documents, or documents with a background pattern. With an intuitive interface, PaperStream Capture effectively and efficiently allows you to feed information into your organization's workflow through various capture features during batch scanning.

● Barcode recognition, automatic sorting, and indexing

You can focus on routine tasks (batch scanning) and configure the scanner to create folders that are divided with barcodes or patch codes as well as automatically sort scanned images to save or index them. The automatic selection of a scanning mode according to each patch codes allows you to load a mixed batch of documents with different types of documents at the same time. The usability for administrators and users is taken into consideration for image processing, which has made simple operations possible and has improved productivity, so that less work is required for users to sort scanned images.

■ fi-7700S Technical Specifications

Description		fi-7700S	
Supported operating systems		Windows® 10 (32-bit/64-bit), Windows® 8.1 (32-bit/64-bit), Windows® 7 (32-bit/64-bit), Windows Server® 2016 (64-bit), Windows Server® 2012 R2 (64-bit), Windows Server® 2012 (64-bit), Windows Server® 2008 R2 (64-bit), Windows Server® 2008 (32-bit/64-bit)	
Scanner type		ADF (Automatic Document Feeder) + Flatbed	
Scanning modes		Simplex / Color / Grayscale / Monochrome	
Image sensor type		Color CCD (Charge-coupled device) x 2 (front x 1, Flatbed x 1)	
Light source		White LED Array x 4 (front x 2, Flatbed x 2)	
Multifeed detection		Ultrasonic multi-feed detection sensor, Paper detection sensor	
Paper protection		Warp detection, iSOP (intelligent sonic paper protection)	
Document size	ADF	Maximum	304.8 x 431.8 mm (12 x 17 in.)
		Minimum	50.8 x 69 mm (2 x 2.7 in.) (Portrait)
	Long page scanning	Maximum*1	304.8 x 5,588 mm (12 x 220 in.)
Paper weight (Thickness)*2	Flatbed	Maximum	304.8 x 457.2 mm (12 x 18 in.)
		Paper	20 to 413 g/m ² (5.3 to 110 lb), A8 size: 128 to 209 g/m ² (34 to 56 lb)
Scanning speed (A4 Landscape)*4	ADF	Color*5	Simplex: 75 ppm (200/300 dpi)
		Grayscale*5	
Scanning speed (A4 Portrait)*4	Flatbed	Color*5	0.6 Seconds (200/300 dpi)
		Grayscale*5	
Scanning speed (A4 Landscape)*4	ADF	Color*5	Simplex: 58 ppm (200/300 dpi)
		Grayscale*5	
Scanning speed (A4 Portrait)*4	Flatbed	Color*5	0.9 seconds (200/300 dpi)
		Grayscale*5	
Paper chute capacity (A4 Landscape)*7		300 sheets (A4: 80 g/m ² or 20 lb)	
Background colors		ADF White / Black (switching with command available)	
Flatbed		White (switching to optional black available)	
Optical resolution		600 dpi	
Output resolution*8		Color (24-bit) Grayscale (8-bit) Monochrome (1-bit)	
Output format		Color 24-bit Grayscale 8-bit Monochrome 1-bit	
Internal video processing		4,096 levels (12-bit)	
Interface		USB 3.1 Gen 1 / USB 3.0 / USB 2.0 / USB 1.1	
Connector shape		Type B	
Image processing functions		Multi image output, Automatic color detection, Blank page detection, Dynamic threshold (iDTC), Advanced DTC, SDTC, Error diffusion, De-Screen, Emphasis, Halftone, Dropout color (None / Red / Green / Blue / White / Saturation / Custom), sRGB output, Hole punch removal, Index tab cropping, Split image, De-Skew, Edge correction, Vertical streaks reduction, Cropping, Dither, Static threshold, Divide Long Page	
Power requirements		AC 100 to 240 V ± 10%	
Power consumption	Operating mode	55 W or less	
	Sleep mode	1.7 W or less	
	Auto Standby (Off) mode	0.35 W or less	
Operating environment	Temperature	5 to 35 °C (41 to 95 °F)	
	Relative humidity	20 to 80 % (Non-condensing)	
Dimensions: Width x Depth x Height*10		706 x 500 x 345 mm (27.8 x 19.7 x 13.6 in.)	
Weight		35 kg (77.2 lb)	
Included software / drivers		PaperStream IP driver (TWAIN/TWAIN x64/ISIS), Software Operation Panel, Error Recovery Guide, PaperStream Capture, ScanSnap Manager for fi Series*11, Scan to Microsoft SharePoint*11, ABBYY FineReader for ScanSnap*11, Scanner Central Admin	
Environmental compliance		ENERGY STAR® and RoHS	
Included items		Stacker, ADF paper chute, AC cable, AC adapter, USB cable, Setup DVD-ROM	

*1 Capable of scanning documents that exceed Legal sheets in length. Long page scanning supports documents with a length of up to 5,588 mm (220 in.) when the resolution is set to 200 dpi or less. If you split and output a scanned image of a long page document into multiple pages, a document of up to 200m (218.8 yd.) can be scanned.
 *2 The paper weight only applies to using the ADF.
 *3 Capable of scanning up to 3 cards at a time when using the ADF. (Note: only one embossed card can be scanned at a time)
 *4 Actual scanning speeds are affected by data transmission and software processing times.
 *5 Indicated speeds are from using JPEG compression.
 *6 Indicated speeds are from using TIFF/IT4 Group 4 compression.
 *7 Maximum capacity varies, depending upon paper weight.
 *8 Selectable maximum density may vary depending on the length of scanned document.
 *9 When scanning at high resolution (over 600 dpi), some limitations apply to the size of the document that could be scanned, depending on system environment.
 *10 Excluding the ADF hopper and stacker.
 *11 The software can be downloaded from the website designated in the Setup DVD-ROM.

■ Options

Description	Parts number	Comments
Black Document Pad	PA03338-D960	Black flatbed background pads which can be easily replaced by users.
2D Barcode for PaperStream	PA43404-A433	This option enables the scanner to recognize 2D Barcode. (PDF417, QR code, Data Matrix, Aztec Code)

■ Consumables

Description	Parts number	Comments
Brake Roller	PA03740-K010	Lifetime: Every 250,000 sheets or one year. These rollers separate documents as they are being fed into the scanner.
Pick Roller	PA03740-K011	Lifetime: Every 250,000 sheets or one year. These rollers feed documents into the scanner.

■ Trademarks

- * ABBYY and FineReader are trademarks of ABBYY Software, Ltd. which may be registered in some jurisdictions.
- * ISIS is a registered trademark of EMC Corporation in the United States.
- * Microsoft, Windows and Windows Server are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.
- * Other company names and product names are the registered trademarks or trademarks of the respective companies.
