## Introducing Ricoh's smallest, lightest and shortest distance projector

The new PJ WX4153 and PJ WX4153N projectors from Ricoh offer an impressive solution for presenting high quality images from a very short distance. With only half the space required, you now can achieve a larger display and minimal shadows from just over 11cm. Lightweight, portable and with interactive capabilities, these compact models are perfect for small space projections and event signage too.

- The ultra short throw design, enabling projection at 48" from a distance of only 11.7cm and 80" from a distance of 25cm
- Improved higher 3,600lm brightness with high image quality
- Easy wireless and multi-PC projection software to share contents simultaneously
- Simple multi projection from up to three laptops with edge-blending functionality
- Optional interactive module for annotating your presentation

## Hardware specifications
