

## ❖ KEY FEATURES

- ✓ Supports TD1/TD2/TD3/TDV document size scanning, which includes international passports and other travel documents
- ✓ Built-in data recognition - reads and extract data from the machine-readable zone (MRZ).
- ✓ Intelligent discovery- start capturing data upon document detection
- ✓ 5-megapixel high-precision optical engine for high speed scanning
- ✓ Integrate-easily into kiosks counters and identity management systems

## ❖ SOFTWARE

### Plustek SecureScan

Utility management application to simplify travel documents (ID card and passport) scanning. SecureScan enables you to specify your personalized scanning configuration setting and detect ID document which are compliant to ICAO Doc 9303. Collects the personal data and photograph and automatically cuts the scans to size.

### Plustek SecureScan Manager

The database management software is customized for SecureScan scan results. SecureScan Manager provides password login mechanism to secure data safety. It enables administrators to specify personalized files management, such as resolution, image output file format and save path. Data can be quickly retrieve via keyword search in seconds.

## Hardware Specification

Model Name	SecureScan X50	SecureScan X100	SecureScan X150	SecureScan X200	SecureScan X-Mini	SecureScan X-Cube
Product Picture						
Image Sensor	CMOS					
Optical Resolution	5M Pixels					
Scan Modess	Color: 24-bit input; 24-bit output	Color: 24-bits input; 24-bit output IR: 24-bit input; 8-bit output	Color: 24-bit input; 24-bit output IR: 24-bit input; 8-bit output UV: 24-bit input; 24-bit output	Color: 24-bit input; 24-bit output IR: 24-bit input; 8-bit output UV: 24-bit input; 24-bit output	Color: 24-bits input; 24-bit output IR: 24-bit input; 8-bit output	Color: 24-bit Input; 24-bit Output IR: 16-bit Input; 8-bit Output UV: 24-bit Input; 24-bit Output
